Key Concepts

A Facilitated Individualized Education Plan (IEP)

- ❖ Is developed by a collaborative team whose members share responsibility for the meeting process and results;
- ❖ Manages decision making through the use of facilitation skills.

This process of Facilitation for IEP meetings enables the team to:

- ❖ Build and improve strong relationships among team members;
- ❖ Reach true consensus;
- ❖ Focus the IEP content and process on the needs of the student;
- ❖ Exercise an efficient, guided meeting process where effective communication and reflective listening are practiced.
